07/13/2017	Nissan North America, Inc.		Manufacturer Service Campaign issued - Campaign #P7331 INF MODELS 2G3G ITB17-041 - Status: Remedy Available Locate an authorized Infiniti dealer near you to obtain more information about this campaign  Learn more about this campaign	
Description: Nissan and Infiniti vehicles equipped with Continental GEN1 TCU devices transmitting at 2/2.5G (GSM/GPRS/UMTS) frequencies and are designed to work with 2G cellular service. The 2G cellular service is no longer active in the United States. The subject 2G TCUs are no longer connected to telematics services and no longer perform any function in the affected vehicles. This campaign is being performed out of an abundance of caution to help safeguard against potential cybersecurity issues. All eligible vehicles that enter the service department for any reason should have the subject 2G TCU deactivated. This campaign will be performed at no charge to the client for parts and labor. Vehicles that have been upgraded to 3G TCUs are not subject to this campaign. 2G TCUs automatically connect to ATTs mobile network code. The subject 2G TCUs are no longer connected to telematics services and no longer perform any function in the affected vehicles. This campaign is being performed out of an abundance of caution to help safeguard against potential cybersecurity issues. Remedy: Nissan is conducting a Voluntary Service Campaign to disable the 2G TCU. Customers may have this service performed free of charge or they may elect to upgrade to a 3G TCU, which may require a copay in exchange for a connected services premium subscription. This disablement service, which is conducted at no charge to you for parts and labor, should take less than one (1) hour to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Service Campaign

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
